The Reason I should Be the Next Title Holder

I believe that I have a lot to offer with my artistry, diversity, and dedication. I would like to continue to make an impact in my community by continuing to serve it and making appearances. I would like to get the opportunity to gain more support and recognition for my platform “ Indigenous Arts” and intend on becoming a yoga instructor and a professional actress/model in the near future to fulfill my dreams of becoming an Indigenous dance studio owner, and professional actress.
